nth Power

nth Power is a unique all-purpose cleaner that has an unlimited range of applications. Coming in concentrate form, this product can be diluted to your specific requirements, not only saving you money but also allowing you to use one product for a whole host of applications. nth Power has been tested and certified safe for use in food preparation areas. This tried and proven product has been economising the cost of cleaning since 1975. Also available in antibacterial.

Suggested uses (full list is your imagination):
- Fat and grease cutting from kitchens to mechanical workshops.
- Bathrooms
- Carpet and Laundry stains
- Paving
- Stainless Steel

...and anything else that is in need of a clean. Call for more info.

Vanilla Fresh - Unique naturally scented hospital grade bacteria kill. AQIS & TGA approved.

Vanilla Fresh is a scientifically proven odour neutraliser and surface sanitiser, which works by leaving a light vanilla scent that temporarily masks the odour while the exclusive SoSafe Surface Active Residual Technology goes to work killing all odour producing bacteria at the source and residually preventing new bacteria growth for up to two weeks. Kills common bacteria such as Staph and Salmonella within 30 seconds. (Contact us for a comprehensive chart of bacterial kill times.) AQIS approved for food preparation areas. Ideal for nursing homes, hotels, public transport, restaurants, councils, schools, home. Wherever there is an odour problem. Call for more info.

Graffiti Removal Products

The SoSafe Range of graffiti removers has been specially formulated to meet the most stringent criteria in the industry. SoSafe products are recognised worldwide to outperform the alternatives without the need to compromise on user or environmental safety.

*No Phosphates      *Non Toxic      *Biodegradable      *Non Flammable      *Water Soluble      *Neutral pH
*Water Deactivated (except Professional Edition and Shadow Chaser)

SoSafe Yellow Graffiti Remover for Painted Surfaces is the most gentle graffiti remover in the SoSafe range. With a neutral pH, SoSafe Yellow has been specifically designed to work slower than SoSafe Blue does, and will allow the removal of graffiti from sensitive surfaces such as Perspex and fibreglass layer by layer, without damaging the surface. SoSafe Yellow is non-corrosive and deactivates with water. Call for more info.

SoSafe Blue Graffiti Remover for Concrete Surfaces is suitable for use on most varieties of porous surfaces and other difficult surfaces. SoSafe Blue will attack the graffiti until neutralised with water. Available as a liquid or sprayable gel. SoSafe Blue is non-corrosive and deactivates with water. Call for more info.

SoSafe Red Professional Graffiti Remover has been specifically formulated for use by professionals and contractors with pressure cleaning equipment. SoSafe Professional is not deactivated by water, allowing for graffiti removal immediately after pressure cleaning - yielding a deeper, professional clean. Call for more info.

Shadow Chaser has been specifically formulated for stubborn, graffiti stains that cannot be removed by conventional means and require additional attention. Under normal conditions, Shadow Chaser absorbs CO2 and is pH neutral within 1 hour of application. Call for more info.

SoSafe Safety Shield is a semi-sacrificial surface protector that increases the ease of graffiti removal and is suitable for all types of surfaces (excluding glass). Safety Shield protects a surface against graffiti and mould, whilst reducing adverse environmental effects on substrates. Safety Shield has a long life span as it is not damaged by UV rays. Prevents mould regrowth. Call for more info.
External Surface Revival (Bleach Replacement) - AQIS & TGA approved.

External Surface Revival (ESR) cleans surfaces affected by environmental deterioration such as water, mould, fungus, moss and discolouration - returning the surface to its original condition. External Surface Revival has a residual effect and will continue to protect the surface for up to 12 months after application. It can be used on any surface and is environmentally friendly, biodegradable and contains many naturally occurring ingredients. Safe for use in public areas. Ideal for toilets, showers, timber balconies, outside dining areas, pathways, around pools and all other wet areas. Call for more info.

Discrete Concrete Remover and Cleaner

Discrete is a unique, safe to use concrete cleaner based on organic compounds. Using new acid replacement technology, Discrete gives the action of a tough acid cleaner but without the fuming, chemical burns and corrosion. Non-Dangerous Goods, Non-Corrosive, Solvent Free. Call for more info.

Hull Clean

Hull Clean is a unique non-acid hull cleaner that is safe for both the user and a majority of surfaces. Does not burn or corrode like other common acids. Non-Dangerous Goods. Call for more info.

nth Power® - Refer to Specialty Products.

Bleach Power - Powerful chlorine based foaming cleaner and sanitiser for use in food preparation areas. Removes mould. Contains 5.5% Chlorine (Sodium Hypochlorite) and 4.0% Sodium Hydroxide.

Vanilla Fresh - Refer to Specialty Products.

Bleach 4 - Liquid chlorine bleach 4% for use in food preparation areas, bathrooms and laundries.

Food Prep - Water based liquid hand soap for use in food and hospitality industry and is AQIS approved. Contains lanolin for skin conditioner. Neutral pH, no solvents and no fragrance.

Anti B Hands - Water based antibacterial hand soap with a mild fragrance. For uses where bacteria control is paramount. Contains lanolin for skin conditioner. Neutral pH and no solvents.

HD Dishwash Powder - Commercial strength dishmachine powder. Finish formula designed for commercial use. Quality product that produces excellent results.

Rinse Aid - Commercial strength dishwashing machine rinse aid to eliminate streaking and spotting. With descaler.

Anti B Sink Wash - Antibacterial detergent suitable for all hand washing. Low foam.

Sink Wash - Liquid hand washing detergent, medium duty, all-purpose, biodegradable, without fragrance.

Ware Wash - A concentrated machine dishwashing liquid. Chlorinated and low foaming with water softening agents. Machine use only.

Sanitising Hand Gel (Waterless) - A waterless hand gel that kills 99.9% of common bacteria within 30 seconds. Can be used in conjunction with gloves inhibiting bacterial growth under the gloves. Contains added moisturisers.
Sanitising Hand Gel Dispenser Unit - Stainless steel to suit 1L bladder unit.

No-Rinse Sanitiser - Concentrated hospital grade disinfectant for floors, walls, benches and food processing equipment and preparation areas. Will not taint food or build up on surfaces.

Stainless Steel Polish - Formulated to protect and enhance stainless steel. Resists finger printing and water spotting.

Oven Power - Low odour, heavy-duty oven and grill cleaner - easy application. Fast acting.

D-Grease Ease - Heavy-duty detergent powder caustic free and completely water-soluble. Safe on aluminium and soft metals. Kitchen floors, walls, exhaust screens etc. in commercial kitchen areas.

Bracton Glasswash RTU (Green Label) - R.T.U. is a diluted glasswash detergent and is suitable for all glasswash machines. Already diluted, it is easy to fill detergent reservoirs, as no mixing is required. May also be used to hand wash or scrub glasses. Removes lipstick. Prevents mould and fungus growth in machines and reduces corrosion and scaling. Recommended by Norris, Washtech and BR series glasswasher manufacturers.

Bracton Pink Glass Soakers/Sanitiser - Ideal for mixing as a soaking solution in a tub. Soak trays of glasses in solution for 5-10 min. before running through glasswasher. Brings glasses up like new. Many hotels soak glasses weekly. For glass machine & ice machine care.

Bracton Descaler - This product can be added directly to recirculating glasswasher weekly. Cleans and removes corrosion and scale build-up. Has a strong disinfectant quality. Cleans smelly drains and keeps mould and fungi out of your equipment. May be used with gloves & scourer to clean Glasswash machines.

Bracton Coupling Disinfectant Soaking Concentrate - After cleaning utensils and small items of equipment with Bracton Beerline Cleaner, (see Beerline label directions for use) leave to soak for 20 minutes or more in a solution of Bracton Keg Coupling Disinfectant. Remove fittings without rinsing. After soaking, this solution may be used on exterior of beerlines, walls, floors, work surface and equipment. Apply with a clean sponge, mop or cloth.

10L Low pH Beerline Cleaner Handipack - Bracton’s two-part beerline disinfecting process. Premium results. Mix when ready to use. Precautions need to be taken with concentrated form, however once diluted to the working solution, the low pH is rated in the same category as non-hazardous chemicals, alleviating dangers involved in accidental contact or consumption. Packed in carton of 5x1L DP1 & 5x1L DP2 bottles.

DP1 Low pH - Disinfecting Process 1. For use as one part of a two-part beerline cleaner set. Precautions need to be taken with concentrated form, however once diluted to the working solution, the low pH is rated in the same category as non-hazardous chemicals, alleviating dangers involved in accidental contact or consumption.

DP2 Low pH - Disinfecting Process 2. For use as the second part of a two-part beerline cleaner set. Non-corrosive.

Twin Low pH Beerline Cleaner - Bracton’s single pack beerline cleaner can be mixed at night for use next morning. Easier mixing. Also used for glass soaking. Precautions need to be taken with concentrated form, however once diluted to the working solution, the low pH is rated in the same category as non-hazardous chemicals, alleviating dangers involved in accidental contact or consumption.

Stainless Steel Oil - Antibacterial cleans and shines stainless bars and equipment like new. None oily when applied.
nth Power® - Refer to Specialty Products.

Citraplus Handcleaner - Heavy duty fast acting hand gel with polygrains for removing the toughest work grime. Free of harsh petroleum solvents and has a light orange fragrance. Contains skin emollients that help leave your hands feeling soft, smooth and refreshed. Removes grease, ink, tar, paint and most other common soils.

Hull Clean - Refer to Specialty Products.

Wash-Hands - Water based handcleaner with fine abrasive polymer beads added to increase cleaning efficiency.

Tyre & Vinyl Reviver - Non-silicone non-toxic for cleaning & rejuvenating rubber and vinyl. Non-flammable.

Tyreshine - Water based, oil finish. Cleans & enhances tyres and rubber trim.

Auto Wash - Neutral pH, quick break shampoo for exterior of cars. Removes road grime and oxidised paint film for a sparkling finish. Wax free.

D-Grease Ease - Heavy-duty detergent powder caustic free and completely water-soluble. Safe on aluminium and soft metals. Ideal workshop floor cleaner.

Powerwash - High quality detergent powder for automatic parts cleaning machines.

nth Power® - Refer to Specialty Products.

Liquid Laundry Detergent - Readily biodegradable meeting AS 4351.

Tornado Toilet Cleaner - Acidic bacteriacidal toilet and urinal cleaner. Cleans, disinfects and deodorises in a single operation. Safe on stainless steel and ceramic.

Vanilla Fresh - Refer to Specialty Products.

Glass Cleaner - Streak free window and glass cleaner.

External Surface Revival - Refer to Specialty Products.

Toilet Flushes - Place in cistern. Cleans and disinfects. Last up to 4 months.

Discrete Concrete Remover and Cleaner - Refer to Specialty Products.

Graffiti Removal Products - Refer to Specialty Products.

Spray Bottles - Custom nth Power bottles with dilution markings and quality, adjustable spray nozzle.

Black Taps - To suit drums with 20mm BSP thread.

Trigger Spray (Blue) - Quality adjustable spray nozzle.

Trigger Spray (Black) - Suitable for Graffiti Removal product. Quality adjustable spray nozzle.
