

VINYL GLOVE RANGE

Premium Disposable Gloves

TRUGLOVE VINYL GLOVES are safe to use in the workplace where latex allergies may be present. Vinyl gloves are an excellent option in the food and beverage industry. They are also a common choice in many household and commercial applications that require routine donning and removal. Other suitable applications include professions such as hairstyling, workplace cleaning, assisted living work, washing, maintenance, and food preparation.

VINYL GLOVE BENEFITS:

- Protein-free and latex free
- Inexpensive
- Good range of sizes
- Available in clear or blue
- Good for short-term, low risk tasks around low-level chemicals
- Have anti-static properties.
